

MAIN STREET

Historic Architectural Assistance Fund PRE-APPLICATION

POLICIES

This pre-application determines eligibility of a building to receive funding through the Historic Architectural Assistance Fund.

The building owner must be the one to complete the pre-application and application, but may receive assistance from an organization.

A proposed building must be located in a central business district and must be a historic (50+ years old) commercial building in order to be eligible for assistance. Any proposed work that the Historic Architectural Assistance Fund would facilitate must maintain or restore the historic integrity of the property.

The Historic Architectural Assistance Fund is best used to address conditions which are challenging for owners of historic properties, such as potentially compromised structural systems, exterior walls and openings, ADA and code compliance, and the loss of historic components. It should be understood that all properties will be treated as historic.

Once the pre-application has been completed, a site visit will be scheduled a minimum of 2 weeks before the application deadline with Wyoming State Historic Preservation Office’s architect Linda Kiisk.

The building owner must attend the site visit and during the site visit, the proposed statement of work will be determined. If needed, travel accommodations will be provided by the applicant for the site visit.

Please direct any questions and submit this pre-application to the Wyoming State Historic Preservation Office.
