Blockchain Opportunities

Advantages

Exemptions
Virtual currencies are exempt from the licensing requirements of the Wyoming Money Transmitter Act, state securities and money transmissions laws, and property taxation.

Simple Licensing
Registering a Wyoming LLC is as simple as registering with the secretary of state’s office.
- Strong privacy protections afforded to all Wyoming businesses.
- New legislation allows LLCs to create subsidiary entities for asset classes to shield each sub-LLC from the risk of liability from the others.

No & Low Taxes
NO corporate, personal or franchise taxes. Wyoming levies low sales and property taxes.

Bandwidth
Wyoming enjoys access to multiple long-haul fiber routes.
- Tremendous bandwidth is available in the Cheyenne area.

Ed Programs
The University of Wyoming is introducing new academic programs to support blockchain.

- Ownership
- Voting
- Intellectual Property

Quality of Life

In Wyoming, you’re more than just a number. Forget about shouting to be heard. Here business and policy makers are part of your team. The Governor knows you on a first-name basis. Don’t be surprised to get a text back.

We also have boundless recreational opportunities minutes from our front doors: mountain biking, hiking, climbing, snow sports, hunting and fishing.

Looking for arts and culture? Yep, we have yoga, microbreweries, museums, triathlons and live music. Were you thinking Wyoming was all ATVs, fly fishing and rodeo? Well, they’ve gotten even better. But so have the lattes.
